EXPERIENCE

Springboard, Software Engineering Career Track Bootcamp, *Student*   July 2020 - Current
- An 800-hour course covers key aspects of front-end and back-end web development, databases, and data structures and algorithms. Modules include learning resources, practice exercises, projects, and career-related coursework.
- Web Development, JavaScript, DOM Manipulation, Event-Driven Programming, Git/Terminal/GitHub,
- Modern JavaScript and Testing, Ajax, JQuery, React.js ,Redux, SQL, PostgreSQL, Flask, Node, Express, Data Structures and Algorithms

Wellsun Farmer Fertilizer Pvt Ltd, *Junior Recruiter*   2014 - 2017
- Sourced, Interviewed and hired qualified candidates for sales and various administrative teams. Partnered with college recruiting groups to fill entry-level roles. Worked closely with hiring groups to create and refine hiring goals and objectives.
- Monitored progress against milestones, assessed for continuous improvement purposes and adjusted the plan to make course corrections and to addressed new workforce issues.
- Performed phone screens and pre-qualification of potential candidates to determine technical and deliverability. Organized drug screening, reference checks, and background checks prior to hiring applicants

PROJECTS

CookingClub   2020 - Current
- Full Stack web Application built with Python & Flask.
- Database managed with PostgreSQL and Flask-SQLAlchemy for ORM.

Socially(React)   2020 - Current
- A simple social media application with users, posts, likes and comments - developed using React, Redux, Node, Express and MongoDB.

Jobly(React)   2020
- Mock job-seeking website, developed a restful API with Node/Express, and a modular UI for single page react app.
- Built and validated forms with Formik and JSONSchema, and managed data with PostgreSQL.

Hack Or Snooze   2020
- Built functionalities for creating an account, logging in, creating a post, favoriting/unfavoriting posts, viewing favorite posts, viewing and deleting my posts, and viewing and updating account information.
- Used different tools and implemented making use of AJAX to make calls to API's with user input, handling the response and using it to update the UI accordingly.

EDUCATION

Springboard   July 2020 - Current
